

Visit to the Rybnoe Orphanage in Ryazan region on the 25th of December 2008.

On the 25th of December 2008 the representatives of Sunbury Heights – Head of quality control department Nazarenko I., IT-manager Likhota P. and Group HR Manager Kaledina M. - visited the Rybnoe Orphanage in Ryazan region patronized by Sunbury Heights for some years. They brought New Year presents for children (sweets and fruits) and made an estimation of the technical characteristics of the two orphanage buildings (the dormitory and the school) for installing a computer network.

In the orphanage there are a computer room in the school (17 PCs), computers at Director`s, accountants` and Deputy`s Director on educational work offices, and also a computer room in the dormitory. Children live in the dormitory in “families” of about 10 - 15 kids and 2 housemothers. The Sunbury Heights representatives sized the possibilities of putting a computer in every flat in dormitory, in school hall and of connecting all the computers in a network.

The Sunbury Heights employees attended a New Year Party for the youngest kids (3-6 year-old). We want to point out, that the emotional climate in the orphanage was very warm and cozy and we want to pay a great respect to its Director Protasov V. N. for his efforts of making the conditions of the children`s lives better and to the tutors who treat the kids with care and love.

As a result of this visit Sunbury Heights offers our vendors to take part in a tender of installing the computer network in the orphanage. We hope that our business-partners will be interested in helping the children. The tender starts on the 13th of March 2009.
