Letter of Recommendation

January 21, 2009

Sunbury Heights was selected on the basis of a tender for Project Management Services to fit-out 2,500 square meters of shell and core office space for our new office in Moscow. The tender response offered a full service package at a competitive price.

The service provided by Sunbury Heights contained all aspects of Project Management including technical engineering expertise. Continuous detailed cost analyzes, experienced leadership and project management skills as well as a thorough work style ensured that the project was delivered in time to meet the move schedule and budget expectations. The Sunbury Heights team was lead by David Breese and his team, Tatyana Ruzanova and Olga Somova. We highly appreciate the hard work, dedication and consistency of all team members' efforts to the project. From the beginning, the team showed efficiency, co-operation and team spirit.

All stakeholders of the project appreciate the performance of the services provided by Sunbury Heights. We recommend Sunbury Heights for their professionalism and expertise.
